

Beauty is more than  
skin  
deep

low maintenance and vast  
colour choice outside

the looks and great feel of  
natural timber inside

**A LARBOND**

<sup>TM</sup>  
*aluminium externally –  
timber internally –  
the natural solution*

## *aluminium / timber composite slim-line casement window*

**Externally** – aluminium never needs repainting and its crisp clean appeal is maintained with just an occasional wash down.

**Internally** – hardwood or softwood timbers attractively shaped and finished require little attention in the future. The system offers design flexibility within a rigid, tried and tested construction.

Open out casements, both top & side hung, and fixed lights can be constructed within the same outerframe.

- up to 32mm glazing
- vast range of colour options
- a range of softwoods or hardwoods internally
- ideal for dual colour projects
- high security glazing
- multi-point shoot-bolt locking
- bespoke designs including bays & bows

### **External colour – internal beauty and the system is green.**

You can have hundreds of other colours but the system is really environmentally friendly. Aluminium is recyclable and all the timber used is from sustainable harvested forests.

Internal timbers include:

- Pine (Class 1 Redwood)
- Southern Yellow Pine
- Mahogany
- Oak

Other window types available include:

- UNI window – top and side swing fully reversible
- Tilt and turn

### **T E C H N I C A L**

#### **INTERNAL**

Softwoods: Vac-Vac treated. All timbers unfinished or clear/toned lacquered finish.

#### **EXTERNAL**

Aluminium extruded from alloy 6063 T6 in accordance with BS1474-1987. Polyester powder coated to BS6496-1984 (full RAL and BS range available). Anodised to BS3987 or wrapped with PVC-U veneers on to powder paint.

#### **HARDWARE**

Stainless steel friction hinges. A range of multi-point locking arrangements. Locking or non-locking handles in a range of styles and finishes.

#### **WEATHER PERFORMANCE**

Samples satisfied the requirements of BS6375. Full test report available on request.

As a result of continuous development and improvement, designs and materials may change without notification.
